

Re-Enactor

Uniform Policy

All re-enactors must adhere to the following costume policy:

In order to ensure we do not offend or insult the ELR will prohibit all uniforms that are not British and American force uniforms throughout the event.

We shall be monitoring very closely attendance at the event by re-enactors and we shall be adopting a very strict policy in regard to involvement in our event.

For clarity, the ELR will ONLY permit British and American force uniforms throughout the event.

Whilst we understand that these arrangements will not attract universal support we do hope that all will understand the reasons as to why we have to take such a firm stance regarding representations that may cause offence to some of our visitors during this family event.

To properly monitor and enforce compliance with these restrictions, our staff will be briefed on what to look out for in terms of which uniforms and regalia are prohibited, along with actions to take should they witness something that does not conform. In such circumstances, re-enactors will either be refused access to, or required to leave ELR premises!
